# SEUMX MOBILE AGENT MANUAL

This manual will help you learn the basics of using this application the android platform. After launching the applications on your device, you will get the home display as shown in fig.1 below.
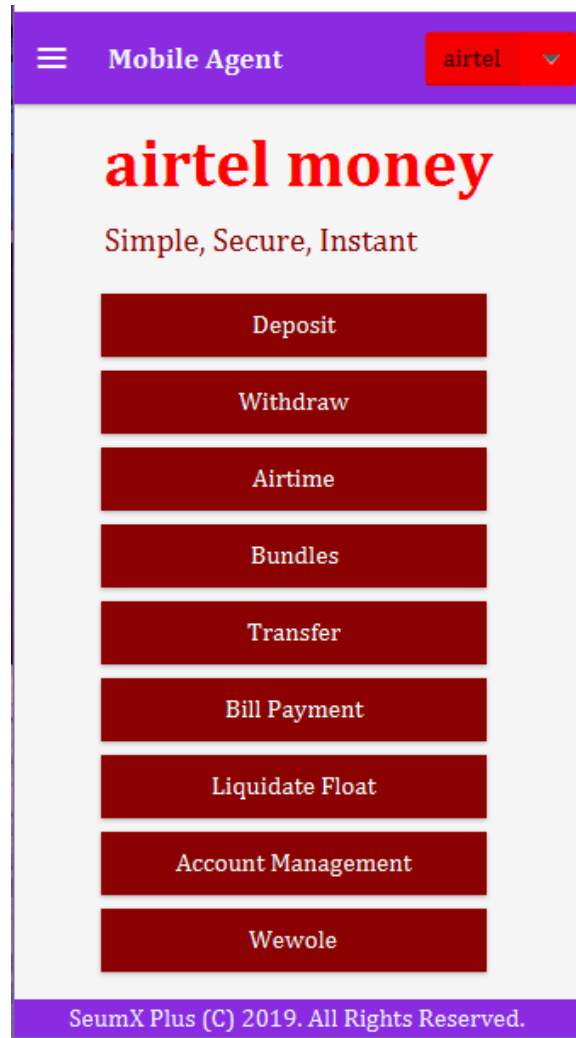

PERFORMING TRANSACTIONS

I) AIRTEL MONEY

On the upper right corner of the home screen, there is a combo selection as shown in the fig.2 below.

Tap on the combo above to change networks of transaction

Select airtel and the display will change as follows.

Airtel money transactions are displayed as above, you can now perform them by submitting them in.

NB: Select sim (airtel) if asked by system.
You will be prompted to confirm the transaction with pin if the values are entered correctly. After the screen below will be displayed.

If your transaction was successful, click on SUCCESSFUL button. If there was disturbance and you wish to try perform that very transaction, click on TRY AGIN button. If the transaction is unsuccessful then click on cancel to return.
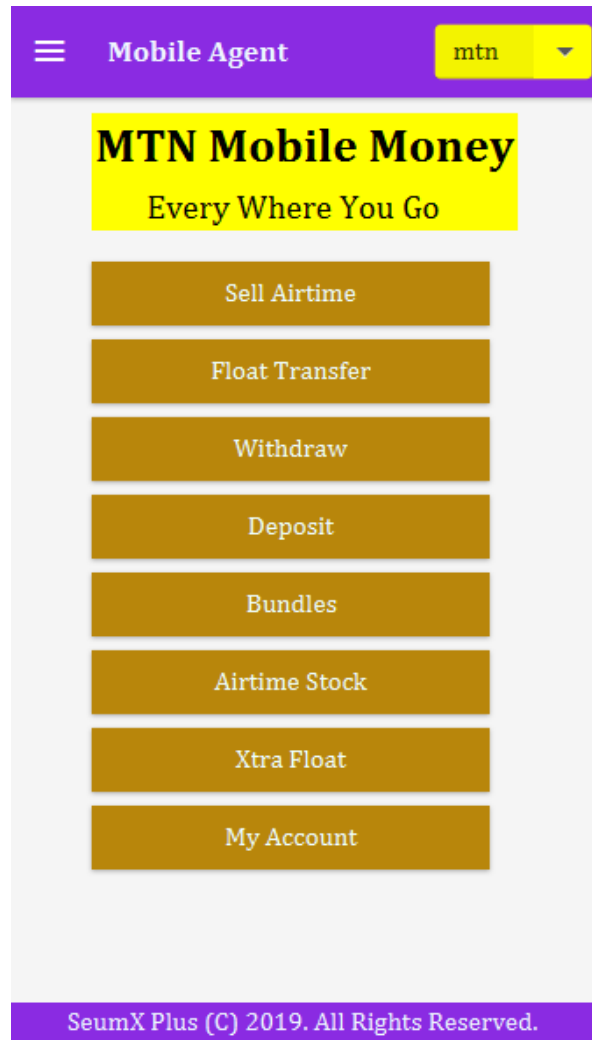

All your transactions will be saved in the inbuilt app database.

II)   MTN MOBILE MONEY

Tap on the combo above to change networks of transaction

Select mtn and the display will change as follows.

These are mtn transactions you can perform with this app.

Transactions are completed the same way as it works with airtel money.

NOTE: All airtel and mtn transactions will only performed if an agent line is inserted into the device.

MAIN MENU

At the right upper corner of the scene the is the button below.

SEUMX MOBILE AGENT

This application was developed by SeumX Plus to make mobile money transactions easier and faster for Mobile Money Agents. The app comes with both Airtel Money and MTN Mobile Money tools to perfom transactions on either networks.

Application key features include:-

- Collecting data and senting USSD requests from User.
- Saving all transactions performed to database.
- Retrieving saved data from database.
- Generating reports.
- Sharing reports.

SeumX Mobile Agent application is still an ongoing project and we are working to bring you a better version of this application. So keep checking for updates.

NOTE: Always look out for updates and
